

Clean BC Roadmap to 2030

Wrap up & Report Back

Collectively move forward. nine proposed pathways

SHARE Milestones and work on biofuels

- research
- more info
- website
- "one stop shop"

FOLLOW UP

EDUCATION AS A NEW PATHWAY

Especially less understood pathways

CURRICULUM

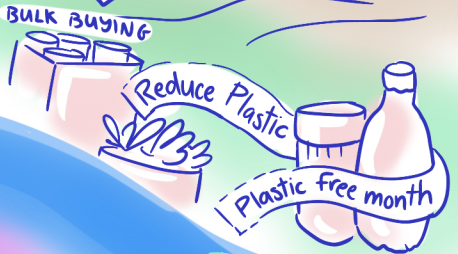

make it right.

REDUCE OIL & GAS DEPENDENCY

REDUCE GHG's

FOREST Economy

Address: Ability to manage and sell SUSTAINABLE CARBON CREDITS

(NOT ECONOMIC BASED)

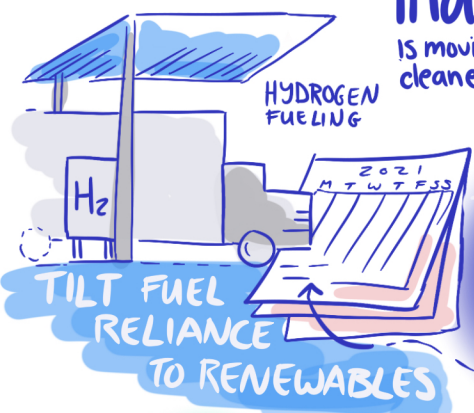

Transfer Federal & Provincial land back.

TRACK: CARBON NITROGEN + OTHER GASES.

Want to see more happen

Industry is moving to being cleaner

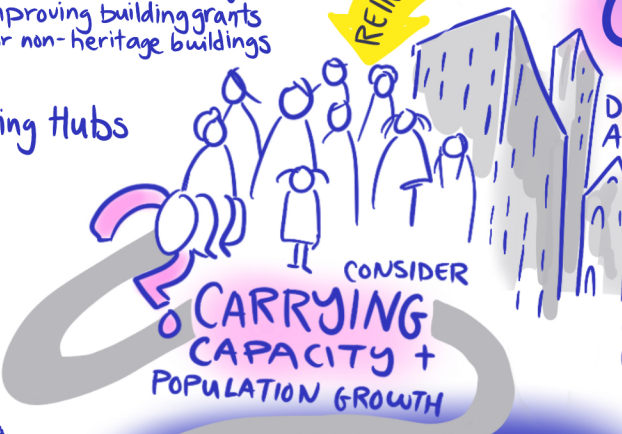

TECHNOLOGY IS IMPROVING BUT NOT FAST ENOUGH TO SLOW CLIMATE CHANGE

Funding

- BIOFUELS
- Timelines for funding
- Improving building grants for non-heritage buildings

Alternate fueling hubs

DOWNSTREAM AFFECTS OF DEVELOPMENT

* Development done right TO MANAGE carbon impacts & AFFORDABILITY

COVER COST BY CARBON CREDIT PROGRAM

BC < OTTAWA

Aligned for climate goals now

sustained economic growth
