

DOES GREENING PROLONG THE LIFE OF OIL & GAS?

Don't burn things.

Oil & Gas need to CHANGE Behaviour.

- Industry creates a lot of waste
- What happens in a spill?
 - Use industry for the transition
 - Put \$ in a fund to support climate affected communities

INDUSTRY AFFECTS DRINKING WATER

Wholistic Approaches

Everything is connected

Education

Sustainable long term jobs

Try new TECHNOLOGIES + SEE WHICH ARE BEST

- economic access to new technology
- Solutions need to be context specific
- Clean energy transition
- Communities can decide for themselves what will work best

DEVASTATION OF A SPILL

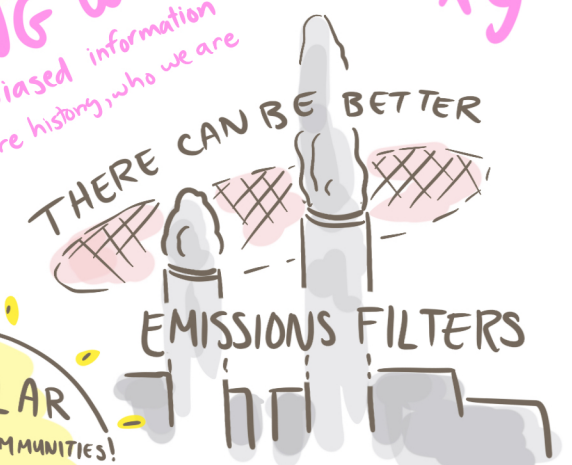

LAND BACK is one OPTION

INFORMATION SHARING WITH INDUSTRY

Of indigenous ways & Ask industry the same questions

receive nonbiased information

Share history, who we are

THERE IS NO CLEAN FUEL.

ADJUSTED APPLICATION PROCESSES

TO SUPPORT COMMUNITIES TO GET AHEAD WITH INNOVATIVE PROJECTS

REVENUE

FUNDING

FOCUS ON: Small & Rural Communities

MORE SOLAR IN INDIGENOUS COMMUNITIES!

EV FLEET & charging Stations

think more about how we travel

tourism

RURAL & REMOTE ELECTRIFICATION

Regulate commercial transport

greeting the day - DANA MORAES -

CLIMATE TRAUMA

Transition to a Low carbon future: What tools do we need?

INDIGENOUS AUTHORITY NEEDS TO BE HAND IN HAND WITH STEWARDSHIP

WE ARE SHARING SPACE

Need to know who we are & where we're coming from

to know where we're going.

THERE'S CARBON IMPACTS TO MAINTENANCE + HAVE FOOTPRINTS ON LAND

A BLUEPRINT for a CLEAN ECONOMY

CleanBC Roadmap to 2030: Low Carbon Energy & Industry

- ELECTRICITY
- CLEAN FUELS
- OIL AND GAS
- INDUSTRIAL DECARBONIZATION
- COMMERCIAL TRANSPORTATION

PROJECTS CREATE ACCESS ISSUES FOR US

METHANE MANAGEMENT

WOULD LIKE TO STRIVE FOR GROSS ZERO - NOT NET ZERO

GEOTHERMAL + RENEWABLE HEAT

HYDROGEN PRODUCTION

INDUSTRY DELIVERS ON TARGETS

PRIORITIZE GREEN ENERGY

CARBON PRICING

PROCUREMENT

INDIGENOUS MONITORING PROGRAMS

SUPPORT JOBS

LIQUID BIO-FUELS
